

JIGSAW PUZZLE

Jigsaw puzzle - An assembly of oddly shaped interlocking and mosaiced pieces. Good skills of observation and organization is all you need to finish the task and be a Jigsaw PuzzleMaster.

An online Jigsaw Puzzle was held on August 14, 2020. Students of Class II PU and II IBDP participated in this activity. This contest was conducted as part of the Rationale Club organised by the Department of Mathematics.

The platforms used to carry out this activity were Cisco WebEx and JSPuzzles. Six different puzzles were given to the students to solve, the student who took the least time to solve all the puzzles was victorious. The students gave their best shot to put the pieces together with their skills.
